Pivot Design & Display Board

Pivot is a series of 100% recyclable paper based boards for use in internal design and display applications. Manufactured in 10mm and 16mm with ICB core (Inverted corrugated core), Pivot boards have a high quality printable white surface, lightweight structure and good loading capacity.

<b>Features</b>	High quality double-sided printing with excellent strength / loading capacity and good V-cutting performance for production of three-dimensional structures
<b>Printability</b>	UV and Latex
<b>Cutting</b>	Suitable for cutting with all modern cutters including Zund, Esko, Summa. Recommended contour cutting with oscillating blade and V-cut with trapezoidal blade

Item	10mm	16mm
<b>Surface material</b>	White top Kraft liner 400gsm	
<b>Core material</b>	Virgin corrugated paper 120gsm with <b>ICB structure</b>	
<b>Adhesive</b>	PVA (100% water-soluble)	
<b>Recyclability</b>	100%	
<b>Width</b>	1220mm	
<b>Length</b>	2440mm	
<b>Net weight</b>	1.70kg/m <sup>2</sup>	2.05kg/m <sup>2</sup>
<b>Colour</b>	White/White with kraft coloured core	
<b>Moisture content</b>	10%+-4% (standard)	
<b>Absorption of moisture</b>	5% (normal dry conditions)	
<b>Loading capacity status</b>	>=1000kgs—transmutation-10mm (24hrs, RH50%+-5%, 23°C±5°C)	
<b>Packaging</b>	15 per carton 120 per pallet	10 per carton 120 per pallet
